A 'Water Wizards' team is hoping to conjure up hundreds of pounds for Cancer Research UK in this year's Ferndown Relay for Life.

Up to 15 customer service staff from Sembcorp Bournemouth Water (SBW) are expected to take part in the 24-hour event at Ferndown Leisure Centre from midday on July 16.

Teams will be required to have at least one person on the track at any time – running, walking or even crawling.

During the relay, candles will be placed in bags all the way around the track with each bag dedicated to a loved one.

Mark Chamberlain, a Customer Adviser who is leading the SBW team, said: "It's great to see the amount of support we have received from the company and also the general public in order to raise money for this amazing cause. Any other donations would be greatly appreciated!"

Tracy Macey, SBW's Customer Service Manager, added: "Our team prides itself on going above and beyond for our customers and Sembcorp actively encourages staff to extend this out into the community. I'm sure the Water Wizards will magic up lots of money for this well deserving cause."
