* Desk-top estimate of charges

Validation charge - Non-contestable* £34.80

The company will provide a letter to email to confirm the point of connection is correct.

The information will be provided within 21 calendar days of receipt of full application.

The day of receipt is day 0

Full payment must be received before we can process your enquiry.

Cheques are to be made payable to '**South West Water**' and payment must be enclosed with the completed application form if price is listed*

* Following its acquisition by Pennon Group Plc in 2015, on 1 April 2016 Bournemouth Water transferred into South West Water. the merged company operates under a single license with the Bournemouth Water name retained. For the avoidance of doubt, this application for is relevant to the activities in the supply area of Bournemouth Water.

Pre Planning: charging arrangements information

The pre planning process provides the customer with the point of connection for the site they are looking to develop and a budget estimate of the costs to supply them. Further information regarding this process can be located in the New Connections and Developer Services - Charging Arrangements 2020-21.

www.bournemouth.co.uk/developer

* **Contestable activity: the review can be undertaken by you/your contractor/your consultant.**

* **Non-contestable activity: the review can only be undertaken by the company.**

Other options for connection:

If the customer wishes for the company to investigate the possibility of connecting to another main which does not fulfill the criteria for options above and requires hydraulic modelling, the company will look for the customer to fund the work.

On request for this service, the company will provide a quote for the work and payment will be required before any work is undertaken. As part of the quote, timescales will be provided on when the customer can expect to receive the outcome of the work.

Please indicate below the type of property

New domestic dwelling – civil engineering services provided in the course of construction of a building designed as a new dwelling or number of dwellings	
New commercial building	
Existing residential / commercial buildings
